

COMMISSIONERATE

Health & Family Welfare Services

No. HFW/COM/PS/20-21

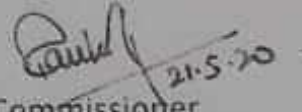

Date: 21.05.2020

Circular

Sub : Movement of people across districts in Karnataka –
Lockdown - 4.0 - reg.
Ref : Order No. HFW/COM/PS/20-21, dtd: 02.05.2020.

The Lockdown-4 has come into force from 18.05.2020 & will continue till 31.05.2020. The order at Ref. above was issued for Lockdown-3 and hence it is withdrawn now.

In view of more relaxations for the movement of people & exemptions to many economic activities, the restrictions on inter-district movement of people has been revisited by the Government. It is now decided that there will be no inter-district check-posts for health screening in Karnataka. Any health screening for passengers travelling by public transport (buses & trains) will be done at the origin of the journey and all those passengers found asymptomatic will be allowed to travel. Those who are found symptomatic should be taken to Fever Clinics for further examination. The agencies running public transport (KSRTC & others, Indian Railways, Private bus operators) should ensure health screening of passengers before the start of the journey. There will be no health screening of passengers travelling by private vehicles across districts in Karnataka.
